APPLICATIONS

Strengthen and manage your application portfolio

Your business is built on applications. In today's business climate, application transformation is critical.

Building, integrating or modernising your applications ensures that the right outcomes are reached at the right price, because whether they are internal or customer-facing, effective applications keep business running efficiently, effectively and affordably.

Start your transformation journey with Powermatla ICT's application services. We are a trusted leader in enterprise application services, with millions of rands in IT cost savings delivered for our application development and maintenance customers.

With a full suite of services from planning and assessing to design, build, run and optimise, Powermatla ICT can help guide your journey from concept all the way through to transformation. Together we can help transform yesterday's applications and today's emerging technologies into tomorrow's agile infrastructure.

We offer:

- Managed Services
- Application Development & Maintenance Services
- Application Modernization Services
- Application Testing Services
- Enterprise & Package Application Services
